Zoom Online Meeting, Presented by Trix Bruce (Deaf)***

This webinar effectively guides interpreters working on English-to-ASL skills. Challenges in rendering ASL from English source material are refined by expediting **visual thinking** skills. Boosting mastery of a wide range of classifiers facilitates visual imagery. This workshop will have several hands-on practice activities and group discussions.

Educational Objectives:

- demonstrate application of interpreting person, content, place, time, procedures, causes, and reasoning
- demonstrate increased classifier incorporation in interpreting
- demonstrate non-question forms of "who, what, where, when, how and why"
- demonstrate rich visual imagery in interpreting
- collaborate in developing ASL expression of English phrases
- match concepts represented by multiple-meaning words

RID CEUs: Trix Bruce is an Approved RID CMP Sponsor for Continuing Education Activities. This Professional Studies program is offered for all workshops 0.75 for this webinar at the Little/No to Some Content Knowledge Level.

Trix Bruce promotes a learning environment free from discrimination and bias, and encourages mutual respect for all participants. Workshops benefit participants at all levels. Countless advanced interpreters have said know that they enjoyed learning updated/new signs that they haven't seen before, such as regional accents. Interpreters appreciate that these workshops are excellent for review as well as for discovering new things that apply within the professional work environment. Students also mentioned that these workshops helped them to understand how to approach their own projects, research, and practice more effectively.
