Interpreting Biology: Close-up Classifiers

Interpreting in biology classes can certainly be a challenge! This workshop will provide helpful interpreting demonstrations and practice exercises. Find out how biology concepts may be clarified visually and communicated in a timely and efficient manner. Interpreters can apply these visualization skills to many topics, bringing scientific discussions to life in ASL. Language registers in ASL interpreting.

RID CEUs: Trix Bruce is an Approved RID CMP Sponsor for Continuing Education Activities. This Professional Studies program is offered for all workshops 0.25 for this webinar at the Little/No to Some Content Knowledge Level.

TARGET AUDIENCE: Target audience: Working, certified, and pre-certified interpreters anywhere in the US.

NOTES: E-Handouts will be provided. The workshop will be presented in ASL. No voice interpretation will be provided. For details on refunds, cancellations, and special accommodations policies, please send an email to info@trixbruce.com . Trix Bruce promotes a learning environment free from discrimination and bias, and encourages mutual respect for all participants.

My workshops benefit participants at all levels. Countless advanced interpreters have let me know that they enjoyed learning updated/new signs that they haven't seen before, such as regional accents. They also loved it when I explained how to sign messages into ASL, rather than just signing in English word by word. Interpreters appreciate that my workshops are excellent for review as well as for discovering new things that apply within the professional work environment. Students also mentioned that my workshops helped them to understand how to approach their own projects, research, and practice more effectively.

These videos were recorded during my webinar presentation. This is for ***RID CEUs professional development purposes*** only. Please respect this video which is non-sharable. Thank you.
