Medical Interpreting: Questions & Appointments

Interpreting topics can be challenging to expand with ASL to show meaning more visually. This workshop will provide hands-on practice with expressive ASL visualization in medical interpreting situations. In addition, video clips will offer practice for voice-interpreting visualized signing. Interpreters will have opportunities to improve medical-setting English-to-visualized-ASL and visualized-ASL-to-English. (0.4 RID CEUs available)

Educational Objectives:

- Practice specific interpreting skills related to medical settings.
- Demonstrate analysis of challenging medical interpreting situations, and devise strategies for these situations.
- Identify obsolete signs and demonstrate updated signs, such as ways to sign new technological developments.

RID CEUs: Trix Bruce is an Approved RID CMP Sponsor for Continuing Education Activities. This Professional Studies program is offered for all workshops 0.4 for this webinar at the Little/No to Some Content Knowledge Level.

TARGET AUDIENCE: Target audience: Working, certified, and pre-certified interpreters anywhere in the US.

NOTES: E-Handouts will be provided. The workshop will be presented in ASL. No voice interpretation will be provided. For details on refunds, cancellations, and special accommodations policies, please send an email to info@trixbruce.com . Trix Bruce promotes a learning environment free from discrimination and bias, and encourages mutual respect for all participants.

My workshops benefit participants at all levels. Countless advanced interpreters have let me know that they enjoyed learning updated/new signs that they haven't seen before, such as regional accents. They also loved it when I explained how to sign messages into ASL, rather than just signing in English word by word. Interpreters appreciate that my workshops are excellent for review as well as for discovering new things that apply within the professional work environment. Students also mentioned that my workshops helped them to understand how to approach their own projects, research, and practice more effectively.

These videos were recorded during my webinar presentation. This is for ***RID CEUs professional development purposes*** only. Please respect this video which is non-sharable. Thank you.
