Discourse Mapping: How do we expand our visual thinking?

This webinar will cover discourse mapping as it applies to sign language interpreting. Demonstrations, examples, practice exercises and discussion will help you build stronger visual imagery presentation skills and add more details to your spatial mapping.

Educational Objectives:

- Apply American Sign Language linguistic principles to clearly communicate with visual imagery
- Demonstrate examples of procedural discourse, informational discourse, persuasive discourse and conversation
- Clarify word meanings with examples
- Demonstrate spatial mapping
- Apply visual imagery to provide expanded detail

RID CEUs: Trix Bruce is an Approved RID CMP Sponsor for Continuing Education Activities. This Professional Studies program is offered for all workshops 0.3 for this webinar at the Little/No to Some Content Knowledge Level.

TARGET AUDIENCE: Target audience: Working, certified, and pre-certified interpreters anywhere in the US.

Trix Bruce promotes a learning environment free from discrimination and bias, and encourages mutual respect for all participants.

My workshops benefit participants at all levels. Countless advanced interpreters have let me know that they enjoyed learning updated/new signs that they haven't seen before, such as regional accents. They also loved it when I explained how to sign messages into ASL, rather than just signing in English word by word. Interpreters appreciate that my workshops are excellent for review as well as for discovering new things that apply within the professional work environment. Students also mentioned that my workshops helped them to understand how to approach their own projects, research, and practice more effectively.
